ASSISTANCE LEAGUE OF ST. LOUIS ANNOUNCES \$10,000 GIFT FROM THE HABERBERGER FAMILY

Kirkwood residents Dan and Lusnail Haberberger and their sons generously donated \$10,000 to Assistance League of St. Louis as one of the gifts the family makes annually to a local non-profit. The Haberbergers are founders of Luzco Technologies, LLC, an electrical engineering consulting firm.

Assistance League of St. Louis President Dawn Thomas today announced that the Haberberger family has donated \$10,000 to the organization.

“Dan was looking for a non-profit to support,” said Thomas. “Every year Dan and his wife, Lusnail, and their two young sons, research a local charity, visit the charity, and if impressed,

write a generous check.” This year’s search of local non-profit websites led the Haberbergers, of **Kirkwood, MO**, to contact Assistance League of St. Louis.

“I was impressed with the impact Assistance League makes on the St. Louis community,” said Mr. Haberberger, who in April with his wife Lusnail and their two sons toured Assistance League’s Ellisville headquarters. Following the tour, they wrote a check for \$10,000 to support the organization.

The couple explained that this year has been a good one for Luzco Technologies, LLC, an electrical engineering consulting firm Lusnail founded.

“St. Louis has been good to our family, and we want our sons to experience first-hand the importance of giving back to the community where they live,” said Lusnail Haberberger, an experienced, highly skilled project manager. Dan Haberberger is a scientist specializing in the design and analysis of high-powered lasers.

“We are honored that this wonderful family chose to help fund our many programs that benefit the region’s children. The gift will help us advance the critical work of our all-volunteer organization,” said Thomas.

ABOUT LUZCO TECHNOLOGIES LLC. Founded in 2017, LUZCO was an idea conceived by Lusnail Rondon Haberberger, a Venezuelan-born American, who dreamed of building a results-driven, client-focused workplace that valued both diversity and work-life balance. Haberberger drew from her skills as an electrical engineer and seasoned project manager for large-scale infrastructure projects to compile a team of certified project managers who thrive on delivering best-in-class services and exceptional results. LUZCO Technologies is an electrical engineering consulting firm offering project management services, engineering design services, and transmission and distribution engineering services.

ABOUT ASSISTANCE LEAGUE OF ST. LOUIS. For more than 30 years, Assistance League of St. Louis’ mission has been to identify, develop, fund and implement ongoing philanthropic programs to serve specific needs of children and adults in the St. Louis community. Assistance League of St. Louis is run by an all-volunteer group of almost 500. In 2019-2020 alone, Assistance League members and friends donated over 65,000 volunteer hours through six philanthropic programs, impacting more than 34,100 lives. Each program has a special focus from providing new school uniforms to shoes and socks and from personal care items for crisis shelters and books for aspiring readers. All funds raised are returned to the St. Louis community. Assistance League of St. Louis is an accredited charity of the Better Business Bureau and has achieved a Platinum Transparency Rating from GuideStar.
